Qualify You as a
Respiratory
Protection Trainer**

WHAT YOU WILL LEARN

7:30 AM—8:00 AM

REGISTRATION OPENS

8:00—11:00 AM

- Federal and State requirements for respiratory fit testing and training
- Elements of a Respiratory Protection Program
- Hands-on quantitative fit test training
- Hands-on qualitative fit test training
- Medical evaluations
- Respirator types
- Choice, use, and maintenance of the appropriate respirator

11:00—12:00 PM

QUESTIONS AND CLOSING

Participants will be given a certificate upon completion of the workshop.

ABOUT THE COURSE

This program is designed to provide a working knowledge of respiratory protection. By the end of the session, participants will understand and be able to apply the components of the OSHA respiratory protection program including the use of stannic chloride and bitrex in qualitative fit testing.

MEET THE TRAINER

Scott Draeger is the Northwest Respiratory and Gas Detection Sales Manager for Sperian Protection Americas, Inc., a global company serving the personal protective equipment (PPE) industry. He has more than 19 years of sales and training experience in the occupational safety and health arena and can be reached at sdraeger@sperianprotection.com.

NEXT TRAINING COURSE

Fall Protection Train-the-Trainer Course

Date: Wednesday, May 27, 2009

Instructor: Rick Maurice, Capital Safety
DBI Sala Fall Protection
